

# Preface

---

**We** are very honoured to be selected as the Hong Kong youth delegates to visit Wirral in the United Kingdom. The International Youth Exchange Programme contains a great variety of activities. Apart from sightseeing, we had the chance to explore the development of the country. Thus, we could have an insight into the social welfare, education system, political structures and most of all, the traditional as well as the appealing British culture.

This report is a record of our precious experience and happy memories. Though the trip lasted only for two weeks, it was indeed an exceptional affair for us all. Moreover, it is our conviction that this report is not simply a record of our memories, also, it symbolizes our long-lasting friendships with the Wirral young people. Here, we sincerely present you this valuable gift and hope that you will enjoy.
