Prof. Daniel Shek, BBS, JP

Member of the Commission on Youth

Mr. Michael Man

Executive Officer of the Home Affairs Bureau

Other than the Hong Kong representatives, we have 3 tour consultants from United Kingdom, they are:

Charles

Margy

Karen

Amy Lok

Hihi everybody! Although I am still very young (23 years old only), I am the oldest among the Hong Kong Delegates. I am Amy, **Active Amy**. I was graduated from the Hong Kong Institute of Education for the Certificate of Education. After that I started teaching in a primary school. Do I look like a teacher? A year later, I resigned the job and decided to study the Bachelor of Education in the Institute again. Still, I was majoring in English. I have just finished my study. I will teach in another primary school in the coming September. As you can see from my name, I am **Active Amy**. I like both indoor and outdoor activities. I like playing almost everything, and I like playing basketball most. I am quite a creative person too. I like DIY very much. Do you like the surprise I had prepared for you?

Caecilia Chu

Hey, this is Caeci of St. Mary's Canossian College. I am a six former this year and I am so glad to have met this group of very nice young people. I enjoy traveling and meeting friends of different nations. At school, I am an active participant of the Science and Mathematics Society, English Society and other clubs of interest. Moreover, I like debating and to discuss challenging issues with my colleagues. It is my strong conviction that I can learn whenever I am and whatever I do. I truly treasure every experience that I have gained in the trip and every friendship that I have established with all the others during my stay in Wirral. You guys are so wonderful!

Carol Siu

Hello! It is Carol, currently a first-year student studying medicine in the University of Hong Kong. I am a cheerful and vivacious girl! My hobbies are travelling, hiking and listening to music. I have been a Girl Guide since Form 1. It is my pleasure to be selected as a Hong Kong Delegate in the International Youth Exchange Programme. I will never forget the fourteen-day trip in which I have built up the invaluable friendship with my group mates from HK and UK. The programme also provided me a precious chance to experience the British culture and life-style. The whole programme was full of fruitful memories.

Cherry Wong

Hello! I am Cherry. I am majoring in Translation in the Lingnan University and I will be a Year 2 student in the coming semester. Regarding my personality, I am neither a versatile person nor an outstanding student. Nevertheless, I am quite responsible and diligent.

I believe that having a balance between academic work and extra-curricular activities is essentially vital to a student. Thus, I participate in different sorts of activities, both indoor and outdoor in my leisure time. Among those hobbies, music can bring me the greatest pleasure and it really helps me to relax from the busy life.

For my aspiration, I hope that I will contribute to society with my knowledge and keep on helping the needy with all my devotion.

Connie Lui

HELLO It's Connie, currently a year 2 student doing Electronic and Information Engineering at the Hong Kong Polytechnic University. I am an active member in my society and I like to take part in various activities such as Drama, Camping, Sports etc... :D I am so glad to be selected as one of the delegates representing Hong Kong to Wirral. I have made many new friends there and this experience did mark a highlight in my life!

Ester Lam

Ester Lam is a 20 years old girl. She loves music (handbell), sports(badminton), travelling, outdoor activities, also eating too. It seems that she is a very active person. Indeed, she also concerns about the social issues and youth empowerment.

She is a year 2 student and will be graduated next year. She studied Higher Diploma in Accountancy at Hong Kong Institute of Vocational Education (Chai Wan Campus) which managed by Vocational Training Council for few years.

Michelle Lok

Hi buddies! This is Michelle. I'm a six-former in Sacred Heart Canossian College. I like playing piano and violin and I love reading especially those adventure stories, like Harry Potter! This is the first time I've been to Europe. The romantic atmosphere and the lovely building really amazed me. Charles, Karen and Margy and all UK delegates are all very kind and nice to us. And now, I've put my sweet memories in UK into this dainty treasure box and hope you'll enjoy our work.

Noel Kwan

Hi, Dear! I am Noel, currently studying Accountancy in the Hong Kong Polytechnic University. I am sure you can recognize me without any difficulties because of my natural curly hair. I am an optimistic and pleasant girl who loves joining different activities and meeting new friends, but I cry quite easily sometimes and you may learn it from my group mates, even they have just stayed with me for 2 weeks time only. I like singing, fishing, eating, swimming and playing some sorts of ball games in my leisure time. Travelling over Europe by myself is my target in the next summer.

Peter Pang

Hello! My name is Peter Pang. I am a 21-year-old student studying Accountancy in City University of Hong Kong. I was a member of the Youth Hong Kong Red Cross of my secondary school for 7 years. I also actively participate the Student Mentoring Scheme of my university. My future career is to become a professional accountant. I am very happy to be selected to join this elite group to visit England. And it was really an unforgettable trip for us!! Read through the report and you will know how exciting it was!!

Philip Ching

Philip Ching is a year three student of the Hong Kong Institute of Education. His major subject is English, while minors are Chinese and Putonghua. Philip will graduate and become a full-time primary teacher since 2002. The main reason for Philip to choose this career is that being teacher is a challenging job. In order to be a good teacher, he should be patient, responsible, adaptable and as creative as his students.

Philip has many hobbies. He likes playing badminton, volleyball, listening to music, singing, reading, collecting stamp, watching television and movies. Among all of his hobbies, he likes watching movies most because movie reflects the situation in society. He felt so happy that he could participate in Hong Kong Film Awards and organize a talk with the renowned director Fruit Chan last year. So, Millennium 2000 is a very important year to him.

I have said so much about Philip Ching, but who is Philip Ching? I am.

Raymond Lam

Hello! I am Raymond Lam Shu Kee, an eighteen-year-old boy studying in La Salle College. I am the only child in my family and the youngest one in this group. I enjoy helping others and doing voluntary work. Joining the Community Youth Club provides me with such chances. I like making friends with others. So, I am deeply thankful for being selected as one of the delegates of this programme, which gave me great opportunities to make cordial local and foreign friends. I like playing badminton and table tennis, and collecting stamps at my leisure. I want to become a teacher in future as I believe teaching is challenging and meaningful.

Ronnie Lui

Hey, it's "romantic" Ronnie speaking. I'm twenty-one years old, studying the BEd course in the Hong Kong Institute of Education. As I will become a primary school teacher in the coming future, I do aim at equipping myself in many aspects in order to welcome the very challenging job. For instance, I learn Putonghua, vocal singing and GuZheng recently. However, don't think I am a very boring person. I believe the saying "work hard and play hard". I like Karaoke, moviegoing, reading and exploring new things with my friends. I do enjoy these relaxing activities and I can relieve pressure through them. For the expectation of my own self, I hope I can be an able teacher, who can always use the smiling face to encourage students.

Sharon Kong

I am Sharon Kong in my twenties, studying communication in the Hong Kong Baptist University. Watching movie, hiking are my hobbies. Travelling around the world and doing some thing for environment protection is my dream.

Stella Chan

Hi! It is Stella Chan, a twenty-year-old girl studying at the Chinese University of Hong Kong. As a psychology student, I am always interested in interacting with people and always seeking for exposure to cultural differences. I enjoy traveling, singing, dancing, swimming, painting and calligraphy. For my career plan, I want to be a clinical psychologist. As an aspiration in life, I wish to work for an international charity organization. Despite my limited power as an individual, I still hope to contribute to the world with love and service.
