

# Pre-tour Preparation

Starting from early July, we worked closely together on the video making and cultural presentation. We attended briefings, several rehearsals and a press conference and got useful information from former delegates and our leaders. The pre-trip gathering was always full of laughter and our friendship has been cultivated since then.

We also had a secret plan - the secret angels. Each of us acted as a secret angel to the other two delegates who were chosen at random. Everything was well-prepared for this big function in this summer and we were all excited about it!
