

Preface

It is our honour to be selected as the youth delegates of Hong Kong visiting Kagoshima in Japan under the International Youth Exchange Programme 2000-2001 this summer. The programme contains a variety of activities, apart from sightseeing, we also had the chance to explore the community services development, culture, welfare and educational systems of Japan.

We hope that through this report all the readers can share our happy, wonderful, unforgettable and meaningful experience and feelings gotten in Kagoshima. We believe that this report is not only a record for our memories, but also a representation of our long-lasting continuous friendship which has already built up between Japan and Hong Kong Youths.

We sincerely present this valuable gift, our report, to all of you and hope you would enjoy it.
