

Conclusion

Japanese culture is very popular in Hong Kong and we know quite a lot about Japan before departure. Through the Kagoshima trip, we had a deeper understanding and a holistic view of Japan. In many parts of the world, it seems that we need to make a cruel decision between a modern city and Nature. But it happens in Kagoshima! There are many advanced technological household goods in every Japanese family, many tall buildings and shopping malls while there are also many brilliant mountains, awesome crater lakes in Kagoshima too. We were delighted that we could spend 8 days in this great place.

This exchange programme has come to an end, but it is only a comma for the friendship among the Hong Kong delegates. We were teammates in the trip, but now many of us are blossom friends. Each time we gathered, we couldn't stop talking about all the unforgettable experiences and little stories in the Kagoshima trip.

Oh! How could we forget the kind Japanese we met, such as the university and high school students, and our host family members? Although it was the first time we met and we just stayed with them for a short period of time, they treated us like close friends. We really look forward to seeing the Kagoshima university students this November in Hong Kong.

Anyway, without the Commission on Youth and Kagoshima Prefectural Government, we wouldn't have the sweet memories of Kagoshima in our life. All the efforts of the officials and staff in dealing with this programme are also highly appreciated.
